JQueryCycle

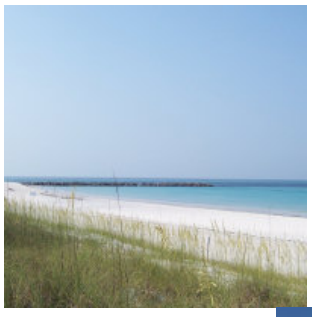
Homepage: http://www.malsup.com/jquery/cycle
Author(s): M. Alsup
Version: 2.65

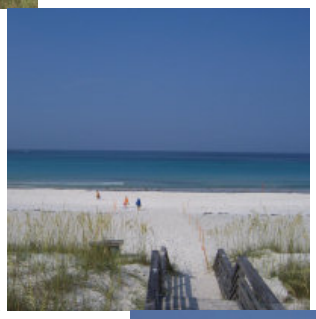
The jQuery Cycle Plugin is a lightweight slideshow plugin. Its implementation is based on the JQueryInnerFade Plugin by Torsten Baldes, the Slideshow Plugin by Matt Oakes, and the jqShuffle Plugin by Benjamin Sterling. It supports pause-on-hover, auto-stop, auto-fit, before/after callbacks, click triggers and many transition effects. It also supports, but does not require, the Metadata Plugin and the Easing Plugin.

Usage

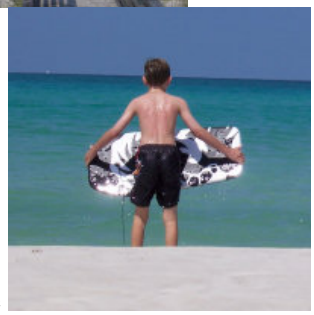
Add the **`jqCycle`** class to the container holding the elements to be cycled.

Examples





St Andrews State Park



Located in the Florida panhandle
Endless fun.

.pics { width:232px; height:272px; padding:0; margin:0; text-align:center; } .pics img { padding: 15px; border: 1px solid #ccc; background-color: #eee; width: 200px; height: 200px; top: 0; left: 0 }
