ForceNewRevision

You are here: Wiki >System Web>ForceNewRevision (12 Sep 2009, ProjectContributor)EditAttach

Normally, if you make subsequent edits within a one hour period (configuration item

ReplaceIfEditedAgainWithin), Wiki will fold together your changes. This is often the "right thing to do", as it can reduce the visual clutter of diffs.

The "Force New Revision" checkbox is a way to force it to create a separate revision each time you save.

The preference setting FORCENEWREVISIONCHECKBOX controls whether this is checked by default or not.

On a related note, you can force **every** save to be a new revision number by setting ReplaceIfEditedAgainWithin to 0.
