Go Box

The box at the top or sidebar of each page, also called Jump box.

Enter a topic name to quickly jump to the topic, for example:

- **WebNotify** to jump to WebNotify in the current web
- **Main.WebNotify** to jump to WebNotify in the Main web
- **Main.** to jump to the home of the Main web
- **BrandNewTopic** to jump to a non existing topic in the current web, which is useful to create orphaned topics

Enter part of a topic name to get a list of similar topics, for example:

- **faq** to get FaqTemplate, NatSkinFAQ
- **Main.users** to jump to the Main web from any web, and get a list of topics about users (all in one step)

 **Tip:** Entering part of a topic name is a simple, yet powerful way to quickly navigate to content of interest, also in a large wiki.

Note: The Go box is not a search box
