Revision control

Foswiki has "Soft security" - anyone can change anything, but changes are logged. There is a complete audit trail:

- Version
- Date of last revision
- Person who made change

is recorded. At the footer of each topic one can click on previous versions. One can also see the differences between revisions by clicking on the $\geq$ sign located between revisions of a topic.

See More Tips...

Edit | Attach | Print version | History: %REVISIONS% | Backlinks | Raw View | More topic actions

Topic revision: r0 - 05 Feb 2005 - 03:37:17 - ProjectContributor
