Edit tables with EditTablePlugin.....1

Edit tables with EditTablePlugin

The EditTablePlugin allows you to edit tables using edit fields and drop down boxes. Tables have an [Edit table] button if preceeded by an `%EDITTABLE{...}%` macro. Each column can be a text field, a drop down box, a date field, etc. Multiple tables per topic are editable, but only one at a time can be edited.

Example:

Syntax: `%EDITTABLE{ format="| row, -1 | text, 20, init | select, 1, one, two, three, four | radio, 3,:-),:-I,:-( | label, 0, %SERVERTIME{"$day $mon $year $hour:$min"}% |" changerows="on" }%`

Nr Text field Drop down Mood Timestamp
1 hello table one 26 Jun 2002 12:30
2 two 27 Jun 2002 12:40
